WORK EXPERIENCE

Website Development & SEO – Equipment Finance (Australia – Remotely)

2026 to Present

- Designed and developed a professional, responsive Wix website for an Australian equipment finance business.
- Built and customized website pages, layouts, forms, navigation, and content according to client business requirements.
- Implemented on-page SEO including page titles, meta descriptions, headings, URLs, image optimization, and keyword targeting.
- Configured and monitored Google Search Console and website search performance.
- Set up and optimized Microsoft Advertising campaigns and conversion tracking using UET Tag.
- Integrated enquiry, application, and contact forms to support lead generation and customer enquiries.

Web Developer – Dev Coder Solution – (Hyd Sindh)

2024 to 2025

- Developed and maintained responsive websites and web applications using React.js, JavaScript, HTML, CSS, and Tailwind CSS.
- Built modern and user-friendly interfaces with a strong focus on UI/UX, responsiveness, accessibility, and performance.
- Developed and customized WordPress websites, WooCommerce stores, Shopify stores, and Wix websites based on client requirements.
- Developed full-stack web applications using Node.js, Express.js, MongoDB, and RESTful APIs.
- Integrated third-party APIs, payment gateways, forms, email services, and external tools into websites and web applications.
- Optimized websites for performance, SEO, mobile responsiveness, and cross-browser compatibility.

Front End Developer – Four Codex (USA- Remotely)

2023 to 2024

- Developing and implementing UI components using React.js.
- Collaborating with cross-functional teams to design.
- Building reusable components and frontend libraries for future use.
- Translating designs and wireframes into high-quality code.
- Use React hooks (like use State, use Effect) and React Context API for state management.
- Fetch and display data dynamically in the UI, ensuring a smooth user experience.
- Reduce loading times and improve runtime performance for large applications.
- Implement responsive web design to ensure the application works across a variety of devices and screen sizes.

IT System Administrator (ITSA) – K-Electric (Karachi Sindh)

2022 to 2023

- Install and configure servers (Windows, Linux, macOS, etc.) and related software applications.
- Maintain operating systems, applications, and services, ensuring they are up-to-date with the latest patches, versions, and security updates.
- Ensure that the hardware, software, and network infrastructure is properly set up and optimized.
- Manage local area networks (LANs), wide area networks (WANs), and virtual private networks (VPNs).
- Configure and maintain routers, switches, firewalls, and other network devices.
- Provide technical support to users, troubleshooting and resolving IT-related issues.
- Monitor user activity and enforce organizational security protocols.
- Ensure that data backups are performed regularly (both on-site and off-site).
